We are hereby submitting:

The drawings (9A, 9B, 13C, and 13F) were objected to because they are allegedly not electronically reproducible. Upon review of the objected drawings, applicants note that they are micrographs showing cellular material, and are of the highest quality. Applicants contacted Monica Young a OIPE on Thursday August 19th. Ms. Young indicated that applicants should re-submit the objected figures, with darker shading if possible, and note that the drawings are the best quality that applicants are able to produce.

Accordingly, to comply with the requirements under 37 C.F.R. §§1.84 and 1.121, submitted herewith are two (2) new sheets of drawings. Applicants respectfully request entry of the drawings into the above identified patent application. The drawings are of the highest quality available to applicants.

To comply with the requirements under 37 C.F.R. §§1.821-1.825, submitted herewith is a sequence listing of the nucleotide sequences presented in the above-referenced application. The sequence listing is being submitted in both paper copy and computer-readable form. Applicants respectfully request entry of the sequence listing into the above identified patent application. The undersigned hereby verifies that the paper copy and computer readable form of the sequence listing are identical and do not contain any new matter.

In the event the enclosed check is improper, or the fee calculation is in error, the Commissioner is authorized to charge any underpayment or credit any overpayment to the account of the undersigned attorneys, Account No. 04-1406.

[X] A duplicate copy of this sheet is enclosed.
